

THE GATEWAY INDIVIDUAL SPIRITUAL HEALING

(Invitation Prayer) Facilitator: Father-Mother-God, We invite only those beings that come forth from Love and Light in service to You. I ask that the Source Pyramid Structure which anchors Power, Love, and Wisdom, and is crowned by our Divine God Source, Light of all that is, be placed over us. I ask for the Magnificence of your Light and the great beings of Light under you, and all your ministering spirits, to shine upon us, bringing Protection, Cleansing, Healing, Clarity and Truth. I ask that anything existing that is not of Truth to be cleansed, cleared and sent back to God. I ask that all work be done within all dimensions, all realities and on all levels of _____'s being. We give thanks for this.

Facilitator' Prayer: I ground myself to Mother-Earth. I center myself in this time and space. I hereby set my intent to facilitate this healing with my whole heart. I am devoted to our Creator with the highest regard for integrity, honesty, and accuracy. I call forth all those from Love & Light who serve Source, Creator, the God of our Understanding. OPENING THE HEART PRAYER by Steve Tiller

May the Divine Mother Spirit take you to her breast and give you the soul rest of the small child.
May the Father grant you the courage to move in new directions as the spirit and your soul find loving challenges in the will of the Divine.

May the Infinite Spirit clear your mind and emotions and focus the healing energy of love emanating from your heart and extending to yourself and the people surrounding you.

Love IS and will be the path of the divine through the universes of time.

May you follow this path with the surefootedness of the hind who seeks the high places.

Repeat after me: I command my heart... to remain open... and to be filled... with Love & Light.
The heart circuit is created... between myself and Spirit. My soul is comforted... I give thanks for this.

PULSAR STAR VISUAL EXERCISE MEDITATION (Client sits up for best visualization)

(Facilitator guides thusly:) Take three deep breaths. Inhale through your nose and exhale through your mouth. Relax and let go of everything in your mind. Imagine a beautiful pulsar star inside your chest. Feel your energy like a pulsar star at your heart. It glows with radiant light. Imagine it becoming larger and brighter. You will move this energy slowly upwards just by intending it to move. This is your energy, your star, and you can direct it easily. Feel it passing through your throat chakra, passing through your brow chakra, and slowly rising out through the top of your head, your crown chakra, to rest six feet directly above you. Just by intending it to rise and stay, it will. Enjoy the love and utter peace that surrounds you. (Pause) As you are worked on by ministering spirits, anything which needs to be released will be sent up to your pulsar star. Now, please lie down comfortably on your back, beneath your star. (Pause) Relax, and take a moment to say a prayer asking the God of your understanding to oversee your healing. Give thanks and take deep breaths, inhaling through your nose and exhaling through your mouth.

ANCHORING THE PULSAR STAR (Facilitator guides thusly:)

Facilitator: Now, please, take a few deep breaths and keeping your eyes closed, sit up. Focus for a moment on your Pulsar Star which has been over you this entire time. All the energies which needed to be released were sent to your Star where they were cleansed and cleared by the Love of Source. Allow these loving energies to bathe you in healing Light and Love. By intending it to be, and as you breathe, your pulsar star will gently descend bringing Spirit Healing energy with it. Take another deep breath and feel your Star enter your crown chakra. Ask Spirit to cleanse each of your chakras. Allow, now, the healing energies to cleanse your crown chakra. Take another deep breath and intend your star to descend into your brow or third eye chakra. Allow the healing energies to cleanse and open wide your chakra. Now take an intentional breath and send your star to your throat chakra. Allow it to clear any blockages. Take another deep intentional breath and send your star gently to rest in your heart space where Spirit will further open and align your heart chakra while I continue...

(Pause) In a few more moments you will intend to send your Pulsar Star down your spine, cleansing and healing each of your chakras. Spirit will correct your chakra spin, energy levels, openings, alignments or whatever healing adjustments are for your highest and greatest good. Once you have reached your root chakra you will set your intention to release your Pulsar Star, sending it to the very core of our planet. This is a gift to Mother Earth and this will anchor and ground you. When ready, you will take a very deep breath and consciously intend this to happen while you exhale. At that point you will open your eyes feeling totally refreshed.

So, I now ask that you send your star to your solar plexus chakra. Allow the cleansing of this chakra. Then take another deep breath and send your star to your sacral chakra and allow the cleansing and clearing of this chakra. Again, take another deep intentional breath and send your Pulsar Star to your root chakra. Allow the cleansing of this chakra. When you feel ready, set your intention. Take a preparation breath then on the following breath, anchor your Pulsar Star by sending it down to the core of Mother Earth.

Stretch before rising and drink plenty of water over the next few days. I thank you for this opportunity to serve. Blessings, Love, Light and Healing to you.
